

SNAK-A-BALL

User Guide

1. For best results use pelleted feed only, i.e. Pony Nuts, no Coarse-Mixes
2. Introduce your horse to the ball by letting him smell the ball and its contents, then gently push the ball, allowing some of the pellets to fall out, your horse will soon get the idea!
3. Try using the Snak-a-Ball both in and out the stable. Particularly when there is little or restricted grazing
4. The Snak-a-Ball benefits not only the digestive system but also encourages stretching from pole to tail

Top Tip 1:

The Snak-a-Ball can also be filled with a variety of small Treats or Succulents (Carrot sticks, Apples etc), provided they are cut to fit through the holes in the centre of the ball

Top Tip 2:

To clean the Snak-a-Ball, simply hose the inside of the ball and leave upside down to drain
